

# Table of Contents

Table of Contents .....	i
Lab 1: Introduction to AVR Development Tools .....	5
Objectives .....	6
Prelab .....	6
Procedure .....	6
Wiring Your TekBot .....	6
Looking at some AVR Source Code .....	7
Write Up .....	9
Additional Questions .....	10
Challenge .....	10
Lab 2: C → Assembler → Machine Code → TekBot .....	11
Objectives .....	12
Prelab .....	12
Procedure .....	12
Looking at C Code and the CodeVision Studio .....	12
Compiling C Code and Downloading .....	16
Your Own Code .....	16
Write Up .....	17
Additional Questions .....	17
Challenge .....	17
Lab 3: Data Manipulation and the LCD Display .....	19
Objectives .....	20
Prelab .....	20
Introduction .....	20
Initialization .....	20
LCD Driver User Manual .....	21
LCDInit .....	21
LCDWrite .....	22
LCDWrLn1 .....	22
LCDWrLn2 .....	22
LDClear .....	23
LCDClrLn1 .....	23
LCDClrLn2 .....	23
LCDWriteByte .....	23

Bin2ASCII .....	24
Data Manipulation .....	25
Writing Your Name .....	26
Write Up.....	26
Additional Questions .....	26
Challenge .....	27
Lab 4: Large Number Arithmetic .....	29
Objectives .....	30
Prelab .....	30
Procedure .....	30
Assignment .....	32
Write Up.....	33
Additional Questions .....	33
Challenge .....	33
Lab 5: Simple Interrupts .....	37
Objectives .....	38
Prelab .....	38
Introduction.....	39
Interrupting a TekBot.....	39
Write Up.....	40
Additional Questions .....	41
Challenge .....	41
Lab 6: Extremely Simple Computer (ESC) .....	43
Objectives .....	44
Comments .....	44
Prelab .....	44
Specifications.....	44
Data .....	45
Registers.....	45
Memory.....	47
Data Memory .....	47
Program Memory .....	48
Instructions.....	49

Assignment .....	49
Test Program Description .....	50
Write Up.....	50
Challenge .....	50
Lab 7: Remotely Operated Vehicle v2.0.....	51
Objectives .....	52
Prelab .....	52
Problem.....	52
Specifications.....	52
Write Up.....	54
Additional Questions .....	54
Challenge: Freeze Tag .....	54
