

# Creating Course Content

- Faculty worked with Ecampus on the technical aspects of creating online lectures.
  - [Camtasia Studio](#) and [Adobe Presenter](#) were the two software options for screen recording and video editing.
  - Lecture examples (click to view 3 minute clips): [Analysis of Algorithms](#), [Software Engineering I](#), [Introduction to Computer Networks](#), [Mobile and Cloud Software Development](#)
- Personal touches, such as faculty introductions were included in the lectures.

[View introduction example](#)

- Created videos with industry representatives to add relevance to course content.
