## CONDITIONAL ADMISSION AGREEMENT

### College of Engineering Professional School

I am being offered “conditional admission” to the College of Engineering professional school with the understanding that:

1. I must successfully complete any remaining pre-core coursework with a “C” or better. Pre-core coursework may not be taken “S/U”.
2. If I am “conditionally admitted” with one pre-core course remaining for Winter term, I agree to take this course the first term it is offered at OSU.
3. Students with pre-core coursework complete PRIOR to Winter term have priority in the admission process.
4. I must remain in “good academic standing” with OSU.

If I fail to meet any of the above I will be removed from the College of Engineering Professional School and returned to “pre-engineering” status. In addition, I will be removed from any professional level engineering coursework that I was allowed to register for under a “conditional” admission status.
